

Holiday Park Spa Range

Some things are built, some things are crafted.....there is a difference!

Enjoy the benefits of Hydrotherapy at Your Holiday Park

Holiday Park Upgrade HSG282 compliant

The new TPS00 Topside features hidden temperature buttons (under the logo) that if pressed display a "temp lock" message after this feature is enabled. Enter a combination of the buttons to easily lock and unlock the temperature settings.

BP200 Pack with 2Kw Heater

In-Line Chlorinator

2 inch Quick Drain

The Cove Spa range of Holiday Park Spas have features specific to this commercial environment as recommended in the HSG282 document. The topside control has limited capabilities and the park user will only be able to operate jets and lights but the water temperature is also displayed. A self dosing adjustable water treatment device is fitted as standard on all spas along with a quick drain facility.

Cove Spa Unique Shell

Cove Spa shells are made of a thermoformed, matt finish, **High Density Polyethylene (HDPE)** which is the most indestructible shell material available in a portable spa. This durability, along with the beautiful matt finish in 3 colour options, makes it the product of choice for discerning buyers with value in mind. **HDPE** has a much greater tensile strength than acrylic, the plastic most other hot tub shells are made with. Cove Spa shells are so strong they do not have to be reinforced with resins and fiberglass like acrylic shells. Due to this strength, **COVE** Spa shells carry a 10 year Warranty! Other products using **HDPE** include truck bed liners, kayaks, chemical containers and high-end coolers. It is the easiest shell material in the industry to care for! **Cove Spas** can be effortlessly cleaned with a soft cloth and most non-bleach household cleaners, glass cleaner or vinegar & water. If needed, a soft bristle brush or a magic eraser can be gently used.

Quality...at an affordable price!

Each **Cove Spa** throughout the range of 4 models is manufactured with the same craftsmanship and quality. Hand - crafted from the finest materials available often seen on more expensive Spas, **Cove Spas** represent superb value offering simple, uncomplicated relaxation. Don't Delaychoose one today and enjoy the experience only **Cove** can bring by creating generations of fun for your guests.

Industry Leading Warranty

10 YEAR SHELL LIMITED WARRANTY

We warrant against the loss of water through the shell caused by defect in materials and workmanship for 10 years of the original purchaser or as long as the original purchaser owns the hot tub.

THREE YEAR COMPONENT LIMITED WARRANTY

We warrant the electrical components, pumps, air valves, slice valves, and hot tub components against malfunction, leaking or defects in materials or workmanship for a period of Three years from the original date of purchase. There are exclusions to the component warranty. Please check with dealer for details.

FIVE YEAR HEATER LIMITED WARRANTY

We warrant the heating element of the hot tub to be free of defects in materials and workmanship for a period of Five years from the original date of purchase. Exclusions can be made in cases where improper chemical balance has been found to be the cause of failure.

THREE YEAR NO LEAK LIMITED WARRANTY

We warrant the hot tub to not leak for a period of three years from the date the original date purchaser purchased the Spa.

TEN YEAR PERMAWOOD™ CABINET LIMITED WARRANTY

We warrant the PermaWood cabinet material to be free from defects in material and workmanship for a period of ten years from the original date of purchase.

ONE YEAR CEDAR LIMITED WARRANTY

We warrant the natural cedar cabinet (when applicable) to be free from defects in materials and workmanship for a period of one year from the date the original date the purchaser purchased the Spa.

The warranty details above are abbreviated. Please request full details from your dealer
